

Use this sheet to reflect on where your CU currently is and where it could improve. Please be encouraged at the things you're doing well, but don't be discouraged at what isn't happening - every CU can improve and you are the person God wants to use to lead your CU in growing.

Would someone visiting your CU know that Jesus is the centre of it?
How would they see this?

What are the issues,
circumstances and cultures in
your school that affect what the
CU looks like?

What could your school look like
if God changed the atmosphere
and the culture of your CU?

Action

Pray over the coming days for God to increase your passion for Him and put on your heart His love for your school and Christian Union.

Consider studying Daniel with your CU and thinking how it applies to you in your school, as a way for people to share their challenges.
